- Persian
- English

ABOUT ME

Since I began my work as a Front-end developer in 2012, I have always been impressed by good UI/UX design. Passion, design thinking, and problem-solving qualities made me focus on increasing my knowledge in Product design, which led me to work as a UI\UX Designer. My point of view as a designer is to provide the simplest solution to a complex problem; as an experienced designer in Programming, JS Frameworks, and System Designs, I tend to choose a route with the least amount of obstacles.

EXPERIENCE

2022 – Current Creative Pomelo	**UI/UX Designer, Visual Designer**
2020 – 2022 DeltaFX	**UI/UX Designer, Visual Designer**
2019 – 2020 DeltaFX	**Front-end Developer**
2017 – 2019 Hotelian.Com	**Front-end Developer & junior UI Designer**
